Important Safety Instructions
• Turn off all power to the Junction Box before making any electrical adjustments.
• Always disconnect the power before installing/replacing bulbs, during cleaning or maintenance.
• To avoid the risk of fire, do not exceed the recommended wattage.
• Consult a qualified, licensed electrician before installation.

To Assemble
1. Use the supplied mounting screws (2x) to fasten the mounting disc to the J-Box.

2. Additional holes are added to the mounting disc to allow for extra mounting screw hardware (not provided), depending on various ceiling constructions. Anchors or ceiling blocking is strongly advised.

3. Using the supplied wire nuts, connect the wires from the fixture to those in the J-box.

4. Push the main body over the mounting disc, flush with the ceiling and tighten the 3x set screw using the supplied allen key.

5. Screw in each light bulb (3x). Do not overtighten.

6. Slide the frosted shade over the threaded stud and secure it using the cap.

7. Turn on the power to ensure you have made good wire connections.

Care Instructions
• Wipe with a soft cloth. Do not use chemical cleaner.

*We recommend installation by a licensed electrician
