

Installation Instructions

Lourmarin Flush Mount

Important Safety Instructions

- Turn off all power to the Junction Box before making any electrical adjustments.
- Always disconnect the power before installing/replacing bulbs, during cleaning or maintenance.
- To avoid the risk of fire, do not exceed the recommended wattage.
- Consult a qualified, licensed electrician before installation.

To Assemble

1. Install the beveled mounting disc to the J-box using the supplied machine screw hardware (2X).
2. Connect the wires to those in the J-box using the Wago wire connectors.
3. Ensure the bevel of the mounting plate is oriented toward the set screws and push the main body over the mounting disc, flush with the ceiling. Tighten each set screw (4X) and ensure that the screws feel snug. Incorrect orientation can result in the fixture falling.
4. Install each shade (4X) by aligning it with the groove in the ceiling plate. Secure each shade with a thumb screw (4X) by passing the screw through the shade and into the ceiling plate.
5. Screw in the bulb (1X).
DO NOT OVERTIGHTEN THE BULB
6. Turn on the power to confirm you have made good wire connections.

Care Instructions

- Wipe with a soft cloth. Do not use chemical cleaner.
