

Important Safety Instructions

- Turn off all power to the Junction Box before making any electrical adjustments.
- Always disconnect the power before installing/replacing bulbs, during cleaning or maintenance.
- To avoid the risk of fire, do not exceed the recommended wattage.
- Consult a qualified, licensed electrician before installation.

To Assemble

1. Install the beveled mounting disc to the J-box using the supplied machine screw hardware (2X).

2. Connect the wires to those in the J-box using the Wago wire connectors.

3. Screw in the bulb (1X).

DO NOT OVERTIGHTEN THE BULBS

4. Ensure the bevel of the mounting plate is oriented toward the set screws and push the main body over the mounting disc, flush with the ceiling. Tighten each set screw (2X) and ensure that the screws feel snug. Incorrect orientation can result in the fixture falling.

5. Turn on the power to confirm you have made good wire connections.

Care Instructions

- Wipe with a soft cloth. Do not use chemical cleaner.
