

Important Safety Instructions

- Always disconnect the power before installing/replacing bulbs, during cleaning or maintenance.
- To avoid the risk of fire, do not exceed the recommended wattage.
- Consult a qualified, licensed electrician before installation.
- Always disconnect the power before installing/replacing bulbs, during cleaning or maintenance.

To Assemble

1. Gently lift the lamp body vertically out of the packaging and place on protected surface.
2. Remove the cap from the shade and screw in the bulb.
3. Screw in the cap.
4. Turn on the power to confirm you have made good wire connections.

Please note: Do not adjust the stem height while the lamp is horizontal (laying on the floor). Doing so causes uneven pressure on the rod, which may result in damage to the finish. Adjust the height while the lamp is standing upright.

Care Instructions

- Wipe with a soft cloth. Do not use chemical cleaner.
